SCRIBING OFF. IN POCA-

HONTAS COUNTY

The following letters received

Mr. W. T. Price from Mr.

W. T. Price, of the Sta-

tion, are published here

because of the great pub-

lic interest which attaches to the

question of oil in this county and we

are glad that we are violating no

one's confidence in so doing.

DE CHANDLER, New York.

January 10, 1906.

Dear Sir:

A few days ago I noticed an

article in the Pocahontas Times

concerning the oil in this county.

As the article is a good one

being very interesting in the

direction some time ago.

I am glad to see that you are

interested in the oil in this

county. Mr. W. T. Price, of the

Station, has been for several

months in a study con-

dition as you may readily see

from the article. His letter you

will find enclosed.

The Standard Oil Co. would be

glad to see greater production in

West Virginia, as well as from

the oil in this county, depending

upon the depth. Oil is worth

\$1.50 per barrel and a bar-

rel of 100,000 barrels would

under ordinary conditions a profit

of \$150,000 per year, with

the expense of getting much more

than the bar.

Some of the people in this

county are of the opinion that

the world is so close to them

that they will take desperate

measures to get the oil in this

county. In all parts of the country

there is a feeling of uneasiness

as to the future of the country.

This adds to the argument against

Pocahontas as no drilling has

been done there for some time

and it is if there were believed in

the possibility of a chance for suc-

cess.

After all there is only one way

to settle a question of this kind

and that is to drill. Many times

the most expert are wrong in

their opinion. I am sure that

many cases in which the service

was not added. Thinking per-

haps that some of your young

men are thinking of doing this

kind of thing in the future, it seems

only fair to say the chance ap-

pears to be against them.

With kind regards to all your

family I am yours truly,

J. A. Morrere.

Mr. J. A. Morrere.

Years of the 15th inst.

You ask for any reason for thinking

that a paying oil or gas well

could be found in Pocahontas

Co., W. Va. The fact is that

no other gas or paying quarry

has been found in such position

as the area extending from New

York state through Pennsylvania

into West Virginia. While the

oil and gas are there, the strike

has been broken and satisfied

that there is no more to be

The sanitary equipment of the home is no

accidental matter, as there is no other

feature of the house which will affect so much and so

conducive to perfect health and good plumbing.

It is well to keep in mind when building, that the best

and family may be required to occupy the home for a long

period, and that the plumbing should be of the best.

Now, no plumbing being installed, therefore for every

house, we have the best in modern plumbing.

Story of Abner and Helen

Helen was, long years ago, a beautiful girl, whose eyes were as blue as the sky, and whose hair was as black as the raven. She was a daughter of a nobleman, and her name was Helen. She was a daughter of a nobleman, and her name was Helen. She was a daughter of a nobleman, and her name was Helen.

It was like a miracle. Helen was a daughter of a nobleman, and her name was Helen. She was a daughter of a nobleman, and her name was Helen. She was a daughter of a nobleman, and her name was Helen.

But she was a daughter of a nobleman, and her name was Helen. She was a daughter of a nobleman, and her name was Helen. She was a daughter of a nobleman, and her name was Helen.

But she was a daughter of a nobleman, and her name was Helen. She was a daughter of a nobleman, and her name was Helen. She was a daughter of a nobleman, and her name was Helen.

But she was a daughter of a nobleman, and her name was Helen. She was a daughter of a nobleman, and her name was Helen. She was a daughter of a nobleman, and her name was Helen.

But she was a daughter of a nobleman, and her name was Helen. She was a daughter of a nobleman, and her name was Helen. She was a daughter of a nobleman, and her name was Helen.

NOTE BY THE WAY.

Sunday morning, January 1, 1908, the first installment of these weekly offerings for the new year.

Arrangements had been made by the church for the Sabbath at the Alexander Memorial Church, and so I was at the Marlinton, and, as it turned out, I found it was only 10 minutes, in the train was, however, not much time for looking around.

As there was a wild storm of unusual severity raging, but I was not so much obliged to be so, hence not much opportunity for observation.

My train was attended by a passenger having some difficulty in arranging a package so as to be more conveniently carried with his valises. A wonderful spectacle was the passenger's relief and in a few moments all was slowly done. The party in question expressed his gratitude to me for my assistance.

"Well, Parson, I know you who people like so well to have you there when they are leaving," said the man, who was Mr. C. B. McCandless, a very rich man.

you but a few rods when they looked back and saw that falling the pants out by his head. It seemed the rabbit had returned to his old haunts and was being helped and helped by his friends.

Frank hit the rabbit a lick and so the hunting party returned, much pleased with their success.

Up going to school a day or two afterwards, I took the same stage, expecting at Marlinton to take it to my home and sell it for "goodies." Before playing time came around, a happy go lucky pig, in moving around, found the hidden prize and ran away with it. At present the relations between Les and the pig are very much strained as the pig is not willing to be so much of a troublemaker, the children throw away.

The dates of the first Sabbath of the New Year, began with a beautiful service, when Mr. and Mrs. Vincent had me baptize their youngest son, Joseph Uriah, seven weeks old.

Memory of that service impressed me very touchingly and enabled me to realize in a fuller sense what a precious privilege it is to be a member of the covenant people in virtue of which faithful parents may be assured that spiritual training will be communicated to their children, along with themselves.

The Sabbath morning exercises at the Alexander Memorial were attended by about seventy-five or eighty persons. From the prayers offered, the tone of the singing, and the thoughtful appearance of the audience, I was impressed with the feeling that it was my good fortune to worship with a congregation whose hearts were drawn and drawn to God, was, that the New Year, may be a New Year, in the best sense of the word, to all present as well as to all that might be absent.

After the services, a person somewhat familiar in years, had me longer for while in the grove near the church, where I found some of the broken and broken, something he wished to say about the greatest sorrow of his life. As I recall that he said, "I am touchingly reminded of the sentiment that is so well expressed by words like these: 'I long for household religion, God has sent my loved ones to me and he can do no wrong. I stand before him as a man waiting for the meek car of no harm from him can come to me. On ocean or shore I'll follow not where His Islands lift. There founded plans in air, I long for household religion, God has sent my loved ones to me and he can do no wrong. ONLY HER FIRST HUSBAND

Puck's Popular Song.

A crowd could easily gather round the altar.

From far and near the wedding for to see.

And the crowd could hear the deep mellow tones.

And all the air was filled with melody.

The wedding march began and in between them there, there, there.

The best which they were able to do for her.

And the bridesmaids dressed in white and the groom dressed in navy.

And many a maid smart and stylish.

The bride then came in and the pastor did begin:

"Does anyone know why this should be?"

"I rather think I do," came a voice from a back pew.

And then this did say appealingly:

Chorus—(Tempo di vals.)

Only her first husband.

That is not much, of course.

Only her first husband.

She has not no divorce.

This wedding it must not take less.

I swear in my life.

Darling, I love you dearly.

To be my wife.

The bridegroom replied. It made him feel so.

"Madam, give me back the ring," to her he said.

"I think that you and I will not be parted."

Because I've seen you are already wed.

And then she said to him:

Chorus—(Tempo di vals.)

Only her first husband.

That is not much, of course.

Only her first husband.

She has not no divorce.

This wedding it must not take less.

I swear in my life.

Dogs After Deer

During the past week at least

three deer and possibly others,

were seen in the river, at the

Bocks, below here. The first one

was seen on the 10th of March.

Just below Person's place, a

first was run right through it.

It was on Wednesday of last

week and was pursued by a single

dog. On Thursday morning, a

second one, Andy Petersen's

hounds brought two deer onto the

front of the Bocks, the first

coming in early before the

others. The Petersen's dogs

stopped the deer and turned them

back. A little later, the same

morning, another came in from

the east of the Bocks, pursued by

the white pack dogs. Petersen's

dogs stopped the deer, all except

one which got across the river and

was seen on the west side.

There was a few deer left in

the river, but the Hensons, and

near the Hanging Rock section,

but the reckless running of the

dogs is continued they will be

run to death or run away. While

the dogs are not so much to blame

as the owners, yet, if the prac-

tice of turning them loose where

they are to be hunted, is con-

tinued, it is thought to be the

thought to be the cause of the

violation of the law to run deer

It is the policy of this paper at

least for the present, to accept no

more railroad passes. This policy

is entirely original, and never

applies for the first time. Now

is the history of the policy. Just

recently, has there been an oc-

casional on which it could have

been applied. For some time we

have felt that there was something

in our land, and now we know

it was this. We were con-

scious of its wandering about in

the dark, dreary, cavernous

abysses of our brain, struggling

against a means of escape, but

not until we were recently

permitted to surrender our ap-

TILMAN RIGHTSAY, EDITOR.

George Davis, Publisher.

Washington, D. C.,—Senator

Tilman Davis's bomb into Senator

Ellis's camp yesterday morning

when he produced in the Senate

from Governor W. W. Dawson

O. Dawson on the railroad situation

in West Virginia, in which

he is virtually charged that Ellis's

friends have been standing

in the way of the enforcement of

single laws to regulate railroads.

Senator Ellis had no answer to

this, but after other times he

replied that he would do his

best to meet these issues in

the Senate.

Senator Dawson's speech

revealed to Ellis's constituents

where it can be regarded with

out difficulty, but Tilman has

been so proceeding to have it

inserted in the report of the Senate

proceedings.

Dawson's letter, dated Charleston

Feb. 9, addressed to Senator

W. W. Dawson, was as follows:

"Dear Senator:

"I have with interest and

satisfaction your remarks in the

Senate on the 7th inst. in regard

to the letter of Mr. Ballou, of

the Red Bank Coal company, at

Upper county, this State. You

have been very practical in your

remarks. That such truth should be

in this State was a disgrace to the

State." Senator Ellis said he

had a law in this State providing

penalty for outrages against the

rights of shippers by railroads.

You are never right until Sena-

tor Ellis. We have some laws

in this State bearing on this

subject, but they are not

enforced. It is inadequate and

we have no means of enforcing it.

I have been trying since 1881 to

get a railroad commission in

West Virginia, but the railroad

men will never let us have it. I

am glad to admit that there is

some truth in what you say. It

is a state of things in a disgrace

to West Virginia.

"The case you presented to the

Senate of the railroads is one

of many samples. The Rail-

road and Ohio Railroad com-

pany has been a great source of

trouble for many years. For

years we have had John K. Cowan

as a source of trouble, and he

is a source of trouble, and he

is a source of trouble, and he

is a source of trouble, and he

is a source of trouble, and he

is a source of trouble, and he

is a source of trouble, and he

is a source of trouble, and he

is a source of trouble, and he

is a source of trouble, and he

is a source of trouble, and he

is a source of trouble, and he

is a source of trouble, and he

confrontation practically to con-

frontation competition with us.

We have no alternative, and we

are anxious to do that, to re-

cover our people from these in-

evitable conditions.

"You will be doing a great

work if you succeed in re-

covering the people from these

public conditions referred to

existing in this State.

"Senator Dawson said that Gov-

ernor Davis's speech should be

of the house of representatives

did not include it in response.

proceedings were so important

that he was not going to re-

spond to it by a separate re-

THE REASON WHY
OUR COAT FRONTS NEVER BREAK

This illustration explains it. The hair cloth extends from the collar down the front of the coat to the lower pocket line. In this hair-chloth is backed by a pliable fabric. London-shrink chamois with extra serviceable horse Holland, reinforces by an additional backing of French elastic tends to second button.

Mr. Stephen L. Hines is with us now and will look about the Tailor suit business, and will visit CASH, SPRUCE, DERRIN, James Leubner Co.'s Camp, Campbell Leather Company's Camps and points on the C. & I. R. R. once every 30 days, and will remain 2 or 3 days or a week, possibly.

Boys, give him your orders as we are quite sure we can please you especially in FIT, QUALITY AND PRICES, as we have others, and we mean just what we say—"Honesty to all alike. We don't care." We have had made in the past five years about \$4, two worth of tailors-made suits and in that time we only had one suit left on our hands or across it of it. That speaks for itself.

We are prepared to take orders for ladies' business-like skirts and suits to measure. One order the goods and have them made ready by a regular lady tailor who has names in Haverhill building will have them made by Mrs. Talbot, as you like. If any desired to measure carefully then by lady land.

Our lines of new spring suits is here and is large and up-to-date. And we think we must be back to our line of Union's finishing shoes and clothing, especially in quality and prices. We know always made it a point to buy only and give pick of styles and especially when goods go on the advance and give us customers the benefit.

Remember we still give a Standard Tacking Machine free with every \$25 Talbot suit or that amount of goods in value more than \$25.

"No misrepresentation."
"Honest goods for an honest dollar."
"No advertisement like a phony newspaper."

1. The first of these is the fact that the majority of the population of the United States is now living in urban areas. This is a result of the process of urbanization, which has been going on since the beginning of the 20th century. The population of the United States has increased from about 100 million in 1900 to over 200 million in 1960. At the same time, the population of rural areas has decreased from about 100 million in 1900 to about 50 million in 1960. This has led to a concentration of the population in urban areas, which has had a number of important consequences. One of the most important is that it has led to a change in the way of life of the majority of the population. In rural areas, the population is more closely tied to the land, and the way of life is more traditional. In urban areas, the population is more mobile, and the way of life is more modern. This has led to a number of changes in the economy, in the culture, and in the social structure of the United States. For example, the economy has become more industrialized, the culture has become more diverse, and the social structure has become more complex. These changes have all been a result of the process of urbanization, and they have all had a significant impact on the United States. The second of the two main factors mentioned above is the fact that the majority of the population of the United States is now living in the South and West. This is a result of the process of migration, which has been going on since the beginning of the 20th century. The population of the United States has increased from about 100 million in 1900 to over 200 million in 1960. At the same time, the population of the North and Midwest has decreased from about 100 million in 1900 to about 50 million in 1960. This has led to a concentration of the population in the South and West, which has had a number of important consequences. One of the most important is that it has led to a change in the way of life of the majority of the population. In the North and Midwest, the population is more closely tied to the land, and the way of life is more traditional. In the South and West, the population is more mobile, and the way of life is more modern. This has led to a number of changes in the economy, in the culture, and in the social structure of the United States. For example, the economy has become more industrialized, the culture has become more diverse, and the social structure has become more complex. These changes have all been a result of the process of migration, and they have all had a significant impact on the United States. The third of the two main factors mentioned above is the fact that the majority of the population of the United States is now living in the South and West. This is a result of the process of migration, which has been going on since the beginning of the 20th century. The population of the United States has increased from about 100 million in 1900 to over 200 million in 1960. San Francisco's Fire
we are Headquarters for Pure Drugs

Will send several fire insurance companies to the wall. Is your property insured in a strong City? Below is an exact copy of telegram received by Hunter and Nichols, Agents of the Continental and other large companies.

TO F. R. HUNGER.
If San Francisco is wiped out the Continental's loss cannot exceed two and one half million dollars. After losing our losses we will have at least fifteen million dollars of assets. We are two and one half million dollars in assets. May other companies will. Put your good business in the Continental. The safety fund law under which we operate, and have special funds on deposit with New York State authorities in Albany would protect any Continental policy holder even if two more cities should burn.

HENRY EVANS, President
New York, April 20, 1906.

Be sure you are safe by insuring in companies of known financial strength.

And like a watchful mechanic

—However poor his fortune be—

He will not fail in any game.

Of poverty—the paltry dimes

Will grow to his time.

Who bids his time be, 'tain the sweet

Of honey to the gathering;

And though he faces with slow feet

Yet runs to meet his drawing

See.

The joy, the beauty of his name,

And like a never-ending rhyme

The rhapsody flows in his lips.

Who bids his time, and day by day

Who bids his time and never rest

In the hot race that men achieve

Shall wear cool reason's laurel,

Yesterday, Wednesday, was

Memorial day. In thousands of

places the passing of the day was

marked by the decoration of

monuments where lay the Nation's

dead. Hereby this again, prevail-

ing, but other than the great

labor on the part of a few, small

number was taken of the day.

Not that we do not venerate the memory

of those who have given their

lives for the Nation, but the

diversity of sentiment of our population is

in no small degree responsible for

not giving the day its proper

recognition. Those who thought

the Lincoln have no grave to de-

to the cemetery in the North after

the great struggle, to be buried

with kindred or laid in a soldier

Our Own Mountains
The title of summer travel has been Europe. The city papers are filled with advertisements of the various resorts where to go.

West Virginia should envy every other to the Alps or to the cities of Germany or the glens of Scotland. Our own mountains are not comparable with the Alps in height, and our rough shores are not so rugged as those of the British Isles.

Attracting Owen's attention suddenly and made signs to him that she was intelligent if she's a thing besides being sweet, I caught sight on Pretty soon, a long as it were a crude crowd on the side, she moved forward and sat beside the edge. I instantly withdrew my arm and took of her, and when I got pretty far, she raised her head and the one that had been looking at her, to look at me. I was not far from her. When she saw that I was not far from her, she was not far from her. When she saw that I was not far from her, she was not far from her.

To The Public.

I will open a general merchandise store, to be known as the Martinsburg Cash Store, in the Commercial Building, within the next ten days. The exact date of opening will be published later.

I have selected my stock with care, and have brought it, virtually, direct from the factory.

My terms are cash, and I will handle good country produce at the highest market prices in exchange for goods at the lowest prices.

One and all are invited to come to my store and make it their headquarters when in town.

A careful examination of my goods and prices is requested. Thanking you in advance for your patronage.

JOHN WAUGH, PROP.

MURDERER CAPTURED.

Followed him and Taken by his

Average.

John Browning, alias Charles

Wilson, who has been working

some months for the Warren Lumber

Company, at Millport, was

arrested last Monday, and taken

to the city, where he is now

being charged with the murder of

a young girl in that county some

two years ago.

Browning has gone under the

name of Charles Wilson since

coming here, and the specimens

which brought about his arrest

are rather peculiar.

Over two years ago Browning

shot and killed Miss Mary Mc

Neely because she refused his

advances and was running away

from another young man.

Browning was drinking at the

time, but had told the girl her

name and where he was intended

to go, and she had been

killing her if she refused to marry

him. He made his escape, and

with him disappeared a man

named Tom Dalton, who was

alias of Henry Pratt. They came

to Portsmouth and Dalton fell in

love with Miss Elsie Fowler, of

that place, and they were married

last June.

Stewart McNeely, the father of

the murdered girl, was attending

the school every morning in his

school to run the murder to

death. Shortly after Dalton was

married, he came back to Wayne

county to the effect that he had

named name was made known,

but the father could not find out

what county the woman had

gone to. He immediately set

about to search the record of every

county until he should find

him. When he got to the

county his diligence was rewarded

and through Pratt he was able to

ascertain the whereabouts of

Browning.

In the two years he had been

searching for the murderer of his

daughter, he had been

travelling in the vicinity of

Wayne county, and he was

very well known to the

people of the county.

NINETEENTH ANNIVERSARY.

Sunday was the nineteenth an-

niversary of the purchase of D.

R. H. Fleming at Westchester

Presbyterian church. In the morn-

ing the pastor, Rev. J. H. Mc

Neely, read the following letter

to the fact that it marks anniversary

and referred to most touching

to the tender relations that

had existed between him and his

congregation. His words were

of the harmony and good feeling

that had always characterized

their association, and expressed

his appreciation of the aid and

cooperation that had been

shown him. His also spoke

of the changes that had taken

place among the members of the

church during the pasting years

of the baby who had grown to

manhood, of the old parsonage

and happy memories, and he

concluded with the prayer that

all who had been accomplished

by the congregation.

Rev. D. A. Fleming, organist

and worker for the Virginia Miss

sion, was present, and delivered a

sermon in the morning appropriate

to the occasion.

At night Dr. Fleming preached

from the same text which he

did in the first sermon that he

preached at this church. He

was "Blessed be the God and Father

of our Lord Jesus Christ, who

has blessed us with all manner

of spiritual blessings, etc." Ephesians

FATAL WRECK

John W. McCook Killed on the Martinsburg and Camden Railway

As the log train on the Martinsburg and Camden Railway was passing the station at the John Young farm above O. O. cars, the train got beyond the limit of the engine and started at the breakneck speed down the incline on the whole rail to the old Church on Sunday Creek.

Opposite P. J. Carter's, the two hind trucks, one loaded with hay and the other with logs, jumped the track and John W. McCook was thrown against the engine and instantly killed.

At the Old Church the other two cars and the engine left the track. Taylor George had the shoulder dislocated, and leg broken and A. A. Allen was seriously injured by a log which fell upon him. Both were taken to the Martinsburg Hospital.

The cause of the wreck was the refusal of the air brakes to work and the engine was unable to hold the train.

Mr. McCook is a native of this county and lives on Beaver Creek. He is about fifty years of age, and has a wife, and a daughter of the late Dr. Harlow, and two children. He has worked in the woods since lumbering first began here about twenty five years ago.

The train was a lumber train, carrying a large load of lumber. It was a large lumber company.

The Greenbrier Valley Medical Association will hold its October meeting in Martinsburg, next Tuesday, October 10, at 11 a. m.

ROCK

Wrecked in a few days after its construction.

There was a light frost on the morning of the 11th.

Harry T. O'Leary and family moved last Friday to Hinton where they will make their future home.

Mr. O'Leary has a position as freight clerk at the C. & O. H. R. Charles McLaughlin and Frank Moore were looking after their interest on Knappa Creek last Sunday.

J. D. Dillie, while crossing over the fence a rail turned and three him off on a rock and hurt his leg very badly. He is said to get a round on the head.

Davis Dillie is around on his annual visit.

The Dillie boys were out hunting one night last week and caught three fine ones.

There is only one and some from Hintonville to the ford at Hintonville—that is all the way.

Ed McLaughlin and Anne McCarty left last Friday for McDaniel's place on Old River.

Top of Albany

George Hallman, of Crabtown, was in the party with him.

Lightning struck the church at this place Tuesday evening, doing considerable damage.

The lightning seems to have come down the spire to the top of the church, and then ran down all four corners of the church, tearing off the corner boards, burning the roof, and splitting some of the corner posts.

Only two window panes were broken. Some windows were near the church in the road, and were shocked considerably.

W. H. Barkley was leaving some wills for Lewis Simmon's house last week.

Wash Snyder, of Nebraska, was visiting friends in this section last week.

George Winchard made a flying trip to Dublin Wednesday.

Charles Spencer says there is not room in the town of Dublin for the gray mare and the freight train, and only one should be there at a time.

Will Hendrick, about 14, got his head so badly hurt by a railroad car that he is unable to be taken off. Dr. Edwards performed the surgical operation, and is getting along very well.

Several of our people expect to attend next week.

We had our first frost for this fall Saturday night, and it snowed a little on the mountains.

The "Chickadee" secured this early their hungry ride very much Sunday evening.

And then it moved and made another mail trip.

Mr. T. F. Myers and daughter and Miss Leslie T. Baker left Monday for Charlottesville and Richmond.

Charles H. Bask and family moved to Harrisonburg, Va. Monday.

Miss Alice Mays is teaching in H. M. Moore's school.

Judge McGowan, of New York, and Hon. Robt. Hickman, of Maryland, were in town.

Edward Curran is on the sick list.

Miss Belle Clark and Mr. D. W. of Hintonville, were married the 10th at John Warlick's, Bureau and layettes to them.

Another brother will be Taylor Moore's personal property.

Keep your eyes on the globe, another wedding soon.

Some of the farmers are looking for buckshot near to win the prize.

Quite a good many of our people attended court this week.

Age O'Brien, the pastor, moved his work to St. Albans.

Mr. J. M. Lewis will move to Hintonville.

Mr. Mabel Reynolds has moved to Hintonville.

L. M. Reynolds, the Merchant Tailor of Hintonville, is to move his store to Hintonville.

THE EXPOSITION

Norfolk, Va. — The Jamestown Exposition, to be held on the shores of Hampton Roads next year will serve as a connecting link between the present and the future of the nation.

[illegible]

The special features of the Jamestown Exposition include a grand military and naval display, drill parades and reviews, but science and art commerce and industry, agriculture and education, will all play important parts in this great celebration of the three-hundredth anniversary of the first permanent settlement of the English in North America, which will open its gates to the public at 10 a.m. April 23, 1907.

All the leading nations of the world and almost if not all the states of the American Union are represented at the Jamez town Exposition as well as our Island possessions. Many of the soldiers and most distinguished commanders, their most magnificent warriors and less dour leaders of the expedition will have their own handsome buildings and comprehensive exhibits of their resources and products. The officers of their national guard to participate with the soldiers of the United States regular army, will also be present. Many of the soldiers in the various military maneuvers which will do much to the advantage of the

Military drills and parades by the strong soldiers of Europe and America will be daily features of the Exposition from the first day. The military drill club says a thirty-acre grounds' parade being arranged for this purpose. Americans will then have an opportunity to compare new military equipment of the kind now being manufactured all over the world. The drill ground is large enough for artillery and cavalry evolutions as well as infantry drill. The military drill club for home countries will be divided into two groups of 6 teams in the troops of the different countries, which will afford opportunity to judge of the tactics and efficiency of the different armies.

Natal soldiers of varying kinds by means which first open the water and by these thence under and over the water, will constitute another plan which the Egyptian victims can appreciate. The great wealth of natural powers of the world will be seen in the waters of Mangrove Boud, near the magnificent trees leading from the Egyptian grounds into the harbor, a distance of 2,400 feet. Natal resources and who later will constitute extraordinary

Tons of Muskrats

That New York city is one of the largest consumers of muskrats as food is not known to most parts of the game dealers. Chicago is its only rival as eater of muskrats, its room for constant barrels of "swamp rabbit" caught along the famous marshes of Lake Michigan.

New York, muskrat, comes from Chesapeake Bay, for the creek runs

To Backs

It would be interesting to read restaurant lists in New York if they were revised according to common nomenclature. It would be found that much of the gastronomic life of the animals served is of the taste of those who have never seen a muskrat on its native ground. A sportsman who frequents the field as well as the clubhouse occasionally finds muskrats on the menu of special game dishes in New Jersey's case, and without saying that I am not safe on the right river though he landed on a hawk. A short tramp once took the home of E. Nell where I found him, and Jesse, I decided to go years ago, and went (felt to me like fifty years ago) to his home to find his mother was over. HUGH MILLER
The Scotch Geologist
The Scotch Geologist, the greatest name in the different walks of life and to greater mind and work than the last two, not very far off. Hugh Miller, of geological fame. A man made busy by trade and obtaining the rocks, he was very successful in his work, a mental tendency and explore the wonders lying beneath the surface of our earth. Three Hugh Miller, great volumes of truth written by him, and the rocks, and the foundations of the world, and the book of the human intelligence name a book of his own: "The Testimony of the Rocks." Thus, it is pleasant to record here, that the Miller and never sought to carry on, warfare between Science and Religion, as too many of the scientific men do. It is a sad thing that to take up a few of the wonderful things of the world, and to be laid before the eyes of the mind of man and find these materials against the Maker, asserting there is no truth or wisdom or connection between heaven and earth, and to do this, and do this and spread this.

We said, "few materials,"

from Henry Weygand, Chairman of the Executive Committee.

In the Messenger of recent date appeared article denouncing the late Republican Executive Committee for its alleged misdeeds. I viewed this article very mildly, stating nothing but the truth as I saw it, but the Messenger did me the honor to publish my reply and I am glad to publish my own defense. I am not a member of the Executive Committee. I do not wish to ask the Editor of the Poughkeepsie Times to publish this defense as the Times belongs to the opposite party. But the Editor of the Times has been very sympathetic in the article of respect and I believe his will allow me space in the paper for this short article.

In the first place the Messenger claims that we as Republicans do not care for our organization in the present campaign. Was as a consequence taken that our organization was all right but the fault was in most of the ticket that was formed from the party and which was not the fault of the organization. I am glad that our organization was so concerned to be defeated and the committee could so help it under

CAPTAIN A. F. MATHEWS

Of Lewisburg

Alexander F. Mathews, aged 54, a prominent attorney of Lewisburg, died at the Pennsylvania Penitentiary in Philadelphia, Tuesday afternoon at 5:30 o'clock.

Mr Mathews' health failed only a few days ago, and he was taken to the sanitarium where he was given the most skillful attention, but science was of no avail & the stricken man passed away the first being a week later than the last of the great ones who died in 1883. He was graduate of the University of Virginia and had been a member of the West Virginia Bar for 45 years.

After the civil war broke out Mr Mathews joined the Union army and was promoted to the rank of the confederate army, he fought gallantly for the Lost Cause and was afterwards with a captivity before the end of the great struggle.

Mr Mathews was one of the most brilliant attorneys in the State and for the past 35 years had been the first of his profession and the first president of the Bar of Lewisburg.

He was born in 1829, at Mount Vernon, less than three miles from Lewisburg, and was

of this city, and one of the most prominent of our citizens. The death of Mr. Matthews is a great loss to the city, and the friends of the cause of the colored people will regret that he should have been taken from us so suddenly. He was a man of high character, and his death is a great loss to the city. He was a man of high character, and his death is a great loss to the city. He was a man of high character, and his death is a great loss to the city.

MONUMENT

For *Fort Saylor Veterans*

The next legislature will be asked to make an appropriation to erect a monument to the memory of the early settlers of what is now the Pendleton county who were killed at the battle of Fort Saylor by Indians in 1756. At that battle the Indians were being circled with that object. The state has in the past made appropriations for two monuments commemorating the soldiers who pioneered the Northwest movement and that erected to the memory of Lee Morgan the first Negro manhooded soldier many years before the battle of Vicksburg and owing to the fact that the persons who suffered death at the battle of Fort Saylor are lacking. But the material facts are well known, remnants of the fort and the grave of the victims are yet to be seen and the petitioners believe.

To the legislature of West Virginia.

The undersigned petitioners, believing that they represent the heroic sentiment of West Virginia and that an appropriation should be made to erect a monument to the memory of the pioneer settlers

There is real pleasure in chewing the best tobacco grown where the best tobacco grows—in the famous Piedmont country.

WHAT YOU KNOW ABOUT

Only choice selections of this well matured and thoroughly cured tobacco is used in making B&W NAPP. That's why B&W NAPP and other of the Reynolds brands, as shown by the Internal Revenue statistics for fiscal year, made the wonderful growth of five and one-quarter million pounds, or a net gain of one-third of the entire increased consumption of chewing and smoking tobacco in the United States.

Obviously, chewers cannot resist the flavor and they cheer SCHNAPPS because SCHNAPPS cheers them more than any other chewing tobacco and every man that chews SCHNAPPS passes the good thing along—one chewer makes other chewers—until the fact is now established that there are thirty more chewers at work in the population. In those States where SCHNAPPS tobacco was first sold there are in the States where SCHNAPPS has not yet been offered

KNOW WHAT YOU ARE CHEWING

SCINAPP is like a cup of fine Java coffee, sweeten just enough to bring out its natural, stimulating quality. SCINAPP gives you all the benefits of coffee, the rich taste that you don't find in a drink that really pleases them. SCINAPP is a healthy stimulant that gives you energy at any price; the power, because it gives you the energy of the larger life, for the mind, giving you an appreciation by its own nature. All invasions contain much more stimulating SCINAPP. They are made that way to help your body properly cured.

For the man who chews tobacco for tobacco's sake, there is also SCINAPP.

Hold at 50c. per pound in 5c. cans. Strictly 10c. and 15c. a tin.
